

Finding Freedom : Horse riding in the desert

Standing out among Zannier Sonop's offerings is the exhilarating horseback riding experience. With on-site stables and expert guides, guests are able to explore rugged terrains and hidden trails, forging a deep connection with the wilderness. A real sense of freedom!

EXPLORING THE DESERT

Nestled within 5,600 hectares of desert, Zannier Sonop offers an unforgettable adventure in authentic 1920s British colonial style. Perched atop granite boulders, the tented lodge offers an immersion in the desert's splendour.

ON-SITE STABLES

Zannier Sonop has its own stables with five magnificent horses. The horses are Appaloosa, a breed unique to Namibia, known for its distinctive markings and unrivalled grace.

The horses feed themselves with the grass of our meadows. In addition to this fresh, healthy food, they are offered alfalfa bunches, cereals and food supplements when necessary. On our premises, these five Appaloosa are thriving thanks to Austin's dedicated care and quality nutrition. They embody the beauty and grace of this rare breed in the heart of Namibia, and we are proud to have them as part of our equine family.

ELEGANT INTERIORS

At Zannier Sonop, every decoration is meticulously chosen, in harmony with our core pillars: authenticity, adventure, elegance, and simplicity. Our decors draw inspiration from the world of British explorers, when equine expeditions were the norm. Throughout the lodge, each object evokes the pursuit of freedom, and praise those equestrian enterprises as well as the beauty of discovery.

Hence, several decoration objects such as boots, riding helmets, carved sticks or binocular glasses remember horseback journeys and the elegance of former horseback explorations, that unquestionably must have been memorable adventures. The goal was to create an environment where all these elements blend to offer an unforgettable experience, connected to the world of equestrian adventure.

“*We blend elegance and freedom in decoration, including equestrian references.*”
