Planting a tree

This is a beautiful initiative by Zannier Hotels Phum Baitang to bring kids closer to nature and teach them the importance to nurture our environment with love. Kids are given the chance to choose a plant between two Cambodian species and explore the major significance of the chosen one in Cambodian history, while planting it with the help of our gardening team. By feeling the ground with their hands, children will understand the power of Mother Earth and discover the resorts green commitments. Kids will have the opportunity to tag their plant with a chosen name. Our team will nourish the plant for them with all love and all the necessary care in the years to follow.
